

International Educator Bootcamp on 3D and XR Studio in PictoBlox

Step into the Future with Immersive Learning

12 Hours of Hands-on Learning

4:00 - 5:30 PM IST
(UTC +5:30)

1st October -
7th October 2024

STEMpedia presents a **6-day International Educator Bootcamp** focused on **Interactive Learning** through **3D Modelling, Physics, Animation, and Block Coding**. This bootcamp equips Educators with the skills to master **PictoBlox's 3D and XR Studio**, enabling them to create **3D Experiences** that revolutionize traditional teaching and bring learning to life in a digital environment.

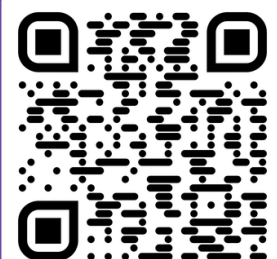

6 Sessions, Daily Doubt Session, and a Closing Ceremony!

Develop a Strong Foundation in Core Concepts

Create Interactive Classroom Content for Kids

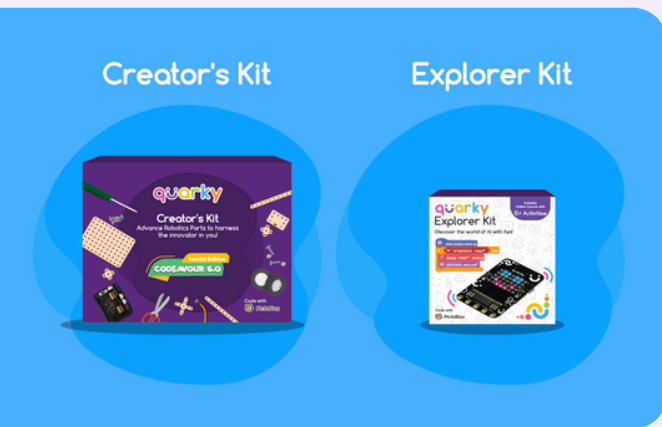

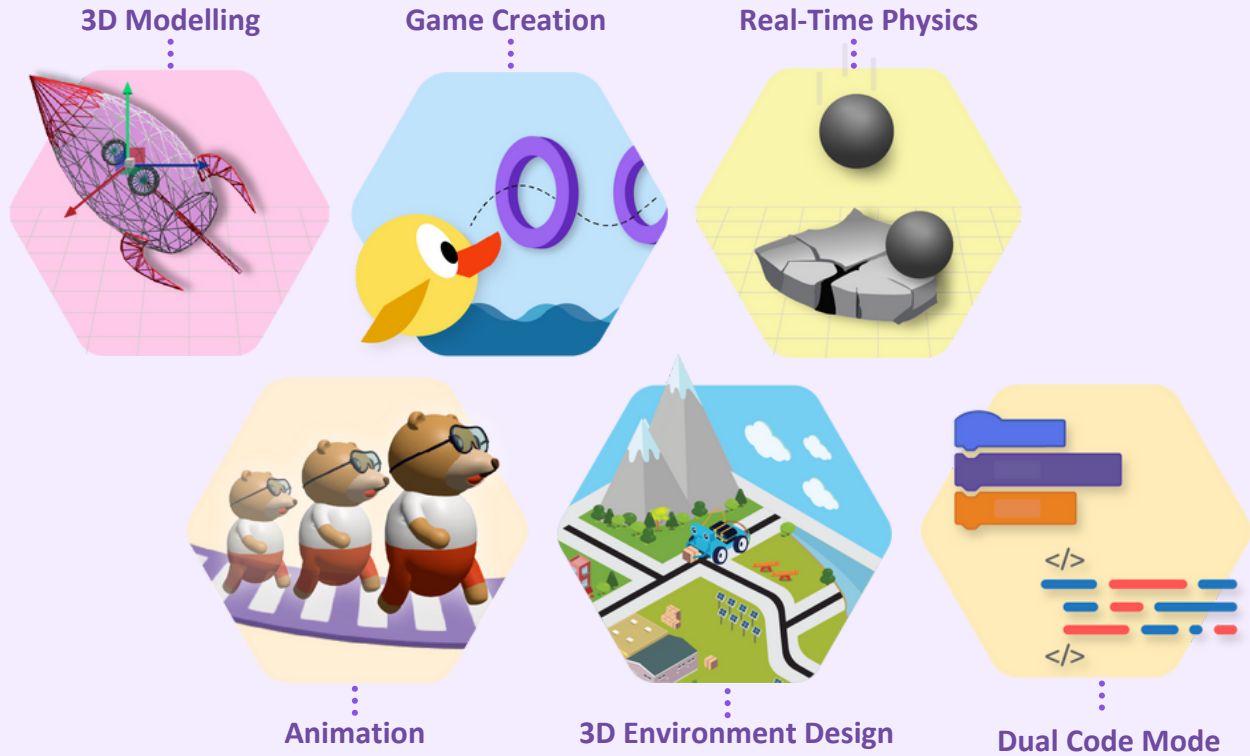

Why Participate?

- Learn with Global Educators
- Earn Badges and Certificates at Bootcamp Completion
- Learn 3D Modelling, AR, VR, Animations, and Coding
- Get Access to Library of 10k+ 3D Objects and Elements
- Access the Learning Management System (LMS)
- Chance to Join the Ambassador Program
- Win Exciting Prizes and Recognitions

Register Now!

What will you Learn?

Rewards for Creative Excellence!

Upon completing the Bootcamp and Capstone Project and other Metrics, the **Top 10 Performers** will have the chance to win our **Creator's Kit and Explorer Kit**—tools designed to help you teach modern skills in an engaging and interactive way.

Who can join?

- Teachers and Educators around the Globe
- Global ICT or Computer Teachers
- Coding/STEM/Robotics Instructors or Trainers
