

# Activity Poster

## Deliver the Parcel

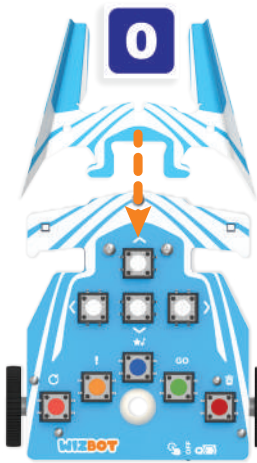

### Let's Play

### Things to Use

Imagine that you are a delivery company and dice is the parcel. Deliver the parcel from one city to another.

**1** Attach the claw to the Wizbot.

**2** Keep the dice on Vadodara and Wizbot on Surat.

**3** Code the Wizbot to deliver the parcel to Kutch.

**4** You have reached!

# Teacher's Handbook

## Learning Objectives

1. Students will be able to plan efficient routes for parcel delivery.
2. Students will be able to develop directional awareness.

## Instructions

**Step 1:** Prepare

**Step 2:** Demonstrate

**Step 3:** Engage

## Exercise

(Duration: 20 mins)

### Instructions:

Ready the Wizbot by attaching the claw.

Imagine you are a delivery company. You have some parcels that you have to deliver to different places.

Keep the cube with the Wizbot. The cube is the parcel. You must deliver the parcel from one city to another.

- A. Deliver the parcel from Surat to Rajkot.
- B. Deliver the parcel from Ahmedabad to Vadodara and then from Vadodara to Kutch.
- C. Deliver the parcel from Bhavnagar to Rajkot. There is no one to receive the parcel. Take the parcel back to Bhavnagar.

How many steps did you take to deliver the parcel? Is it the same as your group members?
