

# International Teacher Training Program on Python with PictoBlox

5:30 PM - 6:30 PM IST  
(UTC +5:30)

23<sup>rd</sup> - 27<sup>th</sup> June 2025

Register Now!

Take your Python knowledge further with our **Teacher's Training Program** designed to empower educators with future-ready **coding skills**. Build confidence in **logic building**, **loops**, **data structures**, and **modular programming** through **hands-on**, **classroom-focused sessions**. Perfect for **Continuous Professional Development (CPD)**, and integrating real-world coding into your teaching.

Completion Certificate  
and Digital Badges

5 hours of  
Hands-on Learning

Learn from Basics to  
Intermediate in  
5 Sessions

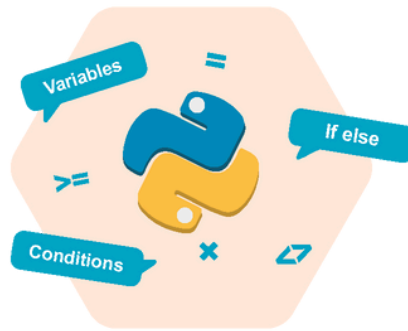

Free Python  
Learning Resources

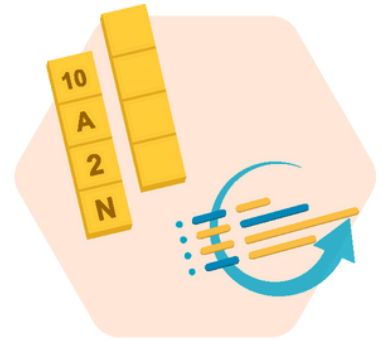

## What will you Learn?

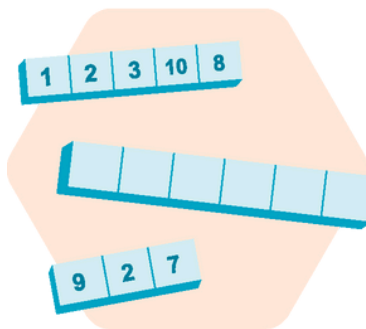

Python Programming

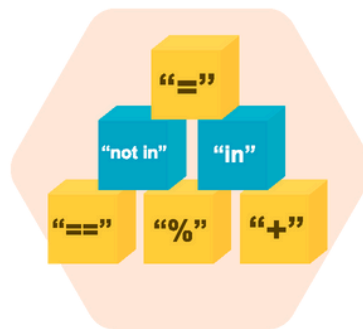

Logic Building

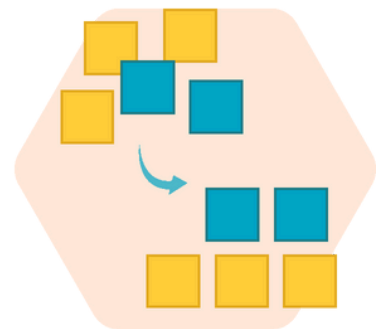

Loops and Lists

Modular Coding

Data Handling

Data Science

## Rewards for Trailblazers!

Upon completion of the Teacher Training Program, top performers will win **educational AI and robotics kits**, and the **top 10 performers** will have the opportunity to become **STEMpedia Teacher Ambassadors**, unlocking exclusive benefits and global recognition. Don't miss your chance to win and innovate!

## Who can Join?

- Educators and Trainers Around the Globe
- Global ICT or Computer Teachers
- Coding/STEM/Robotics Instructors
- Python Enthusiasts

## Prerequisites

- A laptop or PC with good internet connection.
- Latest version of PictoBlox installed on your device. You can download it from <https://t.ly/DownloadPictoBlox>
- A willingness to learn and innovate!
